**3rd TERM MEDICAL CHECK-UP & DEWORMING
REPORT – 2025 (PP1 & 2)**

- Number of children checked and weighed both PP1 & PP2 - 72
- Number of children absent - 20
- Number of children treated for minor ailments - 17
- Number of children de-wormed - 72

Condition of the classes - Excellent.

Condition of teachers – very good.

Condition of children in general – Lots of improvement but in PP1 I noticed skin conditions recurrences, this could be due to newcomers or due to the delay in our medical checkup, not very sure especially Ringworms. NB: I noted very high number of absentees in school, “20”

I still insist all children with skin condition like Ring worms to be shaved by their parents and maintain body cleanliness.

Special thanks to all who made this program a success, your support was overwhelming. God bless the organization and I record that we wish madam Ilonka quick recovery and return to work.

Thank you.
