

Haloooh!!

It's long time since I last said hi to you. We are doing well, the weather is a bit chilly but we're all is fine.

The last time we communicated we were doing the **computer room**. Everything went on fine and at the moment the children are using them. The only challenge is the wifi, the one we have has a short range. But we have a timetable and we usually take the gadget to the computer room so as the children may use it.

The **eye doctors** came and did their part, we have received the glasses and the eye ointments. All pupils are very happy!

The Carpenter, Dedes had also started with the **staff tables and chairs**.

In other words everything is good!

Hope everything is good in Germany, greet me all. Thanks for now.

With regards from BONGWE Pry.School.
